About the Company:

At InnovateX, we're on a mission to transform the way businesses leverage technology. With over 500 employees worldwide, we foster a culture of innovation, collaboration, and growth. We believe in empowering our teams to solve complex problems and make a tangible impact.

About the Job:

We are seeking a passionate and talented Software Engineer to join our fast-growing engineering team. You'll work on a variety of challenging projects, collaborating with cross-functional teams to build scalable, high-quality software solutions. This is a full-time, hybrid position based in Bangalore, India.

What You'll Do:

Collaborate with product managers, designers, and other engineers to deliver new product features and enhancements.

Architect, design, and implement software systems with a focus on scalability and maintainability.

Write clean, efficient, and well-documented code in Python, Java, or C++.

Participate in code reviews, contribute to team best practices, and mentor junior engineers.

Troubleshoot, debug, and upgrade existing software.

Work with DevOps to automate deployments and monitor applications in production.

Stay up-to-date with emerging technologies and industry trends.

Required Skills and Qualifications:

Bachelor's or Master's degree in Computer Science, Software Engineering, or a related field.

Minimum 2 years of professional experience in software development.

Proficiency in at least one modern programming language (Python, Java, C++, JavaScript).

Strong understanding of data structures, algorithms, and object-oriented programming.

Experience with web frameworks such as Django, Spring, or React.

Familiarity with relational databases and SQL.

Version control experience (Git).

Experience with CI/CD pipelines and test-driven development.

Excellent analytical and communication skills.

Preferred Qualifications:

Experience with cloud platforms (AWS, Azure, or GCP).

Knowledge of containerization (Docker, Kubernetes).

Familiarity with microservices architecture and RESTful APIs.

Exposure to distributed systems and networking protocols.

Benefits & Perks:

Competitive salary and performance bonuses

Flexible working hours and remote work options

Health insurance for you and your family

Learning and development budget

Free snacks, wellness programs, and team outings

Employee stock option plan (ESOP)

Why Join Us:

Work in a dynamic, supportive environment with opportunities for rapid career growth.

Be part of a diverse team that values innovation and creativity.

Make a real impact on products used by thousands of customers worldwide.

How to Apply:

Submit your resume and a cover letter outlining your relevant experience and why you're excited to join InnovateX.
